DELTA SERİSİ / SERIES

Deltatech 101 - Deltaterm 311 Korkuluk Sistemi Deltatech 101 - Deltaterm 311 Railing System

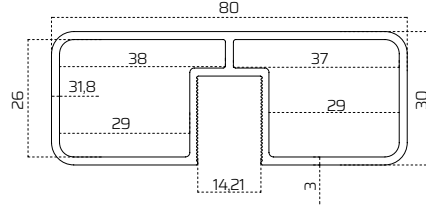

Uygulandığı her alanda ferah bir atmosfer yaratan Delta serisi, yaşam alanlarını olumsuz koşullardan koruyarak şık bir alana dönüştürür. Temperli ve temperli lamine cam özelliği ve güçlü yapısıyla hemen hemen her alanda kullanıma uygun olan Delta serisi, dışarıyla aranıza set koymadan enerjik bir ortam oluşturmanıza olanak sağlar. İhtiyaca göre projelendirilebilen Delta serisi açık alan kullanımınıza da maksimum düzeye çıkarır. Deltatech 101 sisteminde 10mm temperli, 5+5mm temperli lamine ve 6+6mm lamine cam, Deltaterm 311 sisteminde ise 4+20hb+4mm temperli ısıcam seçenekleri bulunmaktadır. Ayrıca Deltaterm 311 serisinde hasarlı cam değişimi kolaylıkla yapılabildiği gibi geniş küpeşte profili ve küpeşte uzatma profilleri ile üzerine sürme cam sistemlerini rahatça uygulayabilirsiniz.

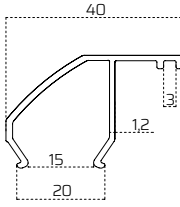

Creating a spacious atmosphere in every application area, Delta series protects living spaces from negative conditions and turns them into a stylish space. With its tempered and tempered laminated glass feature and strong structure, Delta series, which is suitable for use in almost every area, allows you to create an energetic environment without putting a set between you outside. The Delta series, which can be designed according to the needs, also maximizes your outdoor use. Deltatech 101 system has 10mm tempered, 5 + 5mm tempered laminated and 6 + 6mm laminated glass, and Deltaterm 311 system has 4 + 20hb + 4mm tempered insulating glass options. In addition, in the Deltaterm 311 series, damaged glass replacement can be made easily, and you can easily apply sliding glass systems with wide handrail profile and handrail extension profiles.
